FMSAC - Mission and Functions Statement.

On 27 August 1964 the D/FMSAC (CEDuckett) concurred with the draft m&F statement as drafted, and said that the comments of OSI ~~concerned~~ with regard to the possible ~~overlap~~ overlap between OSI and FMSAC responsibilities in the production of intelligence on S&T aspects of foreign offensive weapons and of foreign space activities would require a very detailed statement if each were to be ~~amplified~~ gone into. Mr. Duckett did not recommend such amplification be included in the M&F Statement.
